About ScanBit

ScanBit is a next-generation QR-based digital menu and service management platform designed for restaurants, cafés, hotels, and food businesses.

It replaces traditional printed menus with a smart, mobile-friendly digital system, helping businesses improve customer experience, reduce costs, and gain real-time insights.

With ScanBit, customers simply scan a QR code, view the menu instantly, and interact with your brand no app installation required.

Why ScanBit?

In today's fast-paced digital world, customers expect speed, convenience, and hygiene. ScanBit delivers all three while empowering businesses with technology-driven control.

- ✓ **No physical menus**
- ✓ **No app download**
- ✓ **Fully digital & cloud-based**
- ✓ **Works on all smartphones**
